

## **Reverse Patriotism Act: The Malaysian Patriot's Proposal**

We propose there be something called the "Reverse Patriotism Act" whereby the government:

1. Provides free legal advice or subsidize 100% on legal expenses pertaining to matters on emigration to another country from Malaysia.
2. Subsidize 30% on all moving expenses of said would-be emigres overseas including moving vans to ports of departure, or trains, or any other means of transportation.
3. Provide a certain amount of gratuitous monetary benefit to those wishing to emigrate, as a sign of gratitude from the part of the rest of the Malaysian people to the émigré in question along the following geopolitics:
  - i. China RM150.00
  - ii. Taiwan RM125.00
  - iii. Hong Kong RM 115.00
  - iv. Singapore RM1000.00
  - v. Indonesia RM35.00
  - vi. India RM36.00
  - vii. Elsewhere RM32.00

It should not be misconstrued that the amount given is an indication of how glad the government would want the émigré to go to that particular country although the government will promise not to sue any individuals who believe in that misconstrue. (And for those who complain of the MEAGRE amount these gratuities are, should bear in mind that they are just indications of how happy the nation is to let non-patriotics go. They are NOT meant to bleed the nation dry).

4. Provide the same kind of gratuitous monetary benefit to those directly under the care and providence of the person wishing to emigrate. A sample could be:-
  - i. Wife of Émigré RM80.00
  - ii. Children of émigré under 18 RM20.00
  - iii. Children of émigré above 18 RM250.00
5. A Special plan for bringing entire clans above the number of 50 people will be accorded a "Special Commendatory Status (SCS)" if the émigré in question can manage to persuade that entire clan to emigrate as well. If this number exceeds 100 people, then it will be accorded an "Honorary Gratitude Status (HGS)". The "Lifetime Thankfulness Award Status (LTAS)" will be awarded to those emigrating with 500 or more clan members. The remunerations could be as follows:-
  - i. SCS RM 25.00 per head
  - ii. HGS RM 30.00 per head
  - iii. LTAS RM 50.00 per headThe clans with 1000 or more members will be provided a golden plaque, RM100 each per head and a special chartered Junk to bring the entire clan members to their destination of choice. The special award for THIS type would be termed as "HOGWASH WCC" Status. It stands for "HOly God We Are So Happy We Could Cry" Status.
6. Sometimes in MalaysiaKini, one of the first things one sees upon entering that website are two big posters advertising for the services to people who would want to emigrate: to Australia, Singapore and other countries. Such posters should also not only be encouraged, but should be duplicated in all of the major national newspapers, TV stations, billboards and public walls. The government should bear the expenses of printing and putting up these posters. In fact poster makers should be given some quota systems with the proper remunerations depending on how many posters are posted or how many people have applied for emigration due to his reading of his poster.

7. The following people shall have a first right of refusal in his application for emigrating. That is to say, the following people shall have preferred status and "accelerated application submissal (AAS)" in the emigration process:
  - Those who had a history of questioning the special rights of the bumiputra, in Malaysia. The more incidents this applicant had questioning this right, the more credits he shall have in his AAS points and thus the better is his chance to be granted an emigration
  - Those who had a history of trying to change names of streets, billboards, roadsigns etc from the native Bahasa Melayu to languages other than it or English, thereby making the integration of a unified Malaysian society more difficult, at least in the sense of language.
  - Those unable to prove to the authorities of possessing more than 1000 words of Bahasa Melayu, the national language especially as a result of early educations in ethnic schooling system that glorifies languages other than that of the national language at the expense of some other languages. Profanities, cursings, or hybrid chinese-malay or tamil-malay words referring to certain derogatory anatomical parts of a man or woman are NOT included in this 1000 word requirement.
  
8. Get the Malaysian Government to issue a Datukship to James Tan, the emigration lawyer advertised in MalaysiaKini, for his services to the nation so far. If it can be verified that Dato' Tan has increased his clients to 100 times that amount within the next 5 years, then a Tan Sriship should be due to him, or, if this number reaches 1000 times, a Tunship.
